

# Haileybury International Summer School

## APPENDIX 1 - Electrical Items prohibited in Pupil Bedrooms/Dormitories

It is necessary to control the risk of fire by limiting the type and number of electrical items in pupil bedrooms; the following items are prohibited from bedrooms/dormitories:

Item	Reason/Alternative
Kettle	Overloading of electrical system – keep in kitchen
Toaster/Sandwich Toaster	Heat producing, high risk of fire – keep in kitchen
Popcorn machine	Heat producing, high risk of fire – keep in kitchen
Plug in air fresheners	High risk of fire
Lava Lamps	Heat producing, high risk of fire
Convector and Fan Heaters	Heat producing, high risk of fire – use oil filled radiator if needed.
2 and 3 way plug adaptors	Overloading of electrical system, risk of fire
Electric blankets	Heat producing, high risk of fire.
Plug in fairy lights with bulbs (not LEDs)	Ensure only LED style light or use battery powered fairy lights
Fridges/freezers larger than 46 litres	Small fridges are permitted, no bigger than 46 litres; alternatively use the fridge/freezer in the house kitchen.
Plug-in fluorescent tubes	Overloading of electrical system
Electrical cooking equipment e.g. Microwaves, rice cookers and single hobs	Heat producing, high risk of fire. All cooking equipment must be kept and used in the house kitchen.
Candles, oil burners and incense	High risk of fire.
