

# Data Retention Policy

Policy date:	July 2023
Date of next review:	July 2024
Owner:	Chief Operating Officer
SLT committee responsible:	-
Intended audience:	All staff
Location:	School Portal and website

## **1. Purpose and scope of the Policy**

- 1.1 This policy sets out the periods of retention the School applies to the different categories of records it holds.
- 1.2 The School will retain and store records in accordance with the relevant legal considerations which include:
- the General Data Protection Regulations (GDPR), the Data Protection Act 2018, and associated legislation;
  - other statutory duties and government guidance relating to schools, e.g. KCSIE;
  - disclosure requirements for potential future litigation;
  - contractual obligations; and
  - the law of confidentiality and privacy.
- 1.3 These will inform not only minimum and maximum retention periods, but also what the School must keep and who should be able to access it.

## **2. Roles and responsibility**

- 2.1 The Chief Operating Officer has oversight of data protection at the School. Any questions about the operation of this policy or any concerns that the policy has not been followed should be referred in the first instance to the Chief Operating Officer .

## **3. Child protection and document retention**

- 3.1 In the light of the Independent Inquiry into Child Sexual Abuse the School is aware of its duties relating to long-term, lifetime or even indefinite keeping of full records related to incident reporting. Regardless of suggested retention timescales set out below, the School may at its discretion extend retention periods, particularly in respect of any personnel or pupil documents, if they contain any information which may be relevant to allegations or future claims relating to safeguarding. Data protection issues should never put child safety at risk, nor take precedence over safeguarding considerations.

## **4. Meaning of “record”**

- 4.1 In these guidelines, "record" means any document or data which contains evidence or information relating to the School, its pupils or staff. Some of this material, but not all, will contain personal data as defined in the GDPR.
- 4.2 Many, if not most, new and recent records will be created, received and stored electronically. Others (such as certificates, registers, or older records) will be original paper documents.
- 4.3 Both paper and digital records will be stored securely, and all appropriate measures taken to ensure the security of the data at all times.

## **5. Secure disposal of documents**

- 5.1 When data is to be destroyed, this will be done securely. This may be carried out by an appropriately licenced third party, with whom an appropriate Data Processing Agreement is in place.

5.2 For data to be considered securely disposed of, it must be in a condition where it cannot either be read or reconstructed. Paper records must be shredded using a cross-cutting shredder; CDs / DVDs / diskettes will be cut into pieces.

5.3 Hard-copy images, AV recordings and hard disks will be dismantled and destroyed.

## 6. Timescales for retention

6.1 Except where there is a specific statutory obligation to destroy records, the timescales suggested below should not be treated as prescriptive. They are guidelines only and should not be a substitute for exercising careful thought and judgement, or taking specific advice where necessary, depending on the circumstances. Sometimes, case-by-case decision making for the retention of documents will be required.
